Democrats asking questions in response to Trump North Korea meeting By MIKE ALLEN-REUTERS WASHINGTON (Reuters) - Nancy Pelosi's Democrats accused President Donald Trump of firing Attorney General Jeff Sessions on Wednesday, as their leader questioned the administration's response to potential deals with North Korea and withdrew a House contempt citation against the White House. Minutes after Trump fired Sessions, a move aimed at putting a loyalist in charge of the Justice Department, Senate Democratic leader Chuck Schumer said he would be calling on the new attorney general to "rein in this administration's lawlessness" - a reference to probes of the president, his top aides and family. "President Trump has threatened to fire the attorney general again and again. He just did," Schumer said, appearing on the Senate floor. "Even with a qualified candidate for attorney general, there are extraordinary ethics rules that prohibit (Sessions) from being involved in any investigation of the president." Schumer urged the Senate to "tell the president and his allies to cease and desist." The House on Tuesday cited the White House for refusing to comply with a subpoena seeking documents related to contacts that Trump's former national security adviser Michael Flynn had with a Russian diplomat before the November U.S. election. Among those cited was a text message Flynn sent on Dec. 29, 2016, to Russia's ambassador to the United States, Sergei Kislyak, that said Flynn would "informally contact" the Russians. The House, which is controlled by Democrats, cited "multiple criminal referrals" in connection with the case and said Attorney General Jeff Sessions was acting as a "stalking horse" for Trump. "I believe if we do anything in response to that they will retaliate, and that's just a fact," Schumer said. Trump fired Sessions on Wednesday afternoon for refusing to resign and to be replaced by a Trump loyalist. Trump on Tuesday effectively cleared the way for Sessions to step aside when he tweeted that there "would be a recusal." That had followed criticism by Republicans and Democrats of Sessions's decision to recuse himself from investigations into Trump's campaign's possible ties to Russia after failing to disclose that he had met with Kislyak at Trump Tower in New York in July 2016. Schumer said his party would "never accept any type of quid pro quo from the president." "I think what they're doing is trying to get an agreement that will make them look good. For the

It is based on the 1989 film Watership Down, the second best-selling children's novel written by Richard Adams. Watership Down is a fictionalized story of a group of rabbits who flee the devastating effects of a predator on their home. The film was panned by critics and was not a success at the box office, but is today considered as one of the best books to film adaptations. Plot In the fictional England of the past, a plague of the "Dawn Mist" has devastated rabbit populations. The rabbits of Efrafa, a fictional version of Watership Down, have banded together in their home, Efrafa Wood, and seek to rebuild their community. One year of peace and prosperity has been disrupted when a band of young rabbits is captured by a group of corrupt city dwellers. Their leader Hazel sets them free, telling them the true nature of their home while the young group takes refuge in a hidden valley. In the present-day United States, Hazel's grandson
