What is new in official Portable EasyTools Picture Merge Genius v2.8.1 release series?Q: OpenCV GetTickCount. No such overloaded function exists I've tested this code on a Win7 64 bit machine. For some reason, the OpenCV library is throwing this error: OpenCV Error: Bad argument (No such overloaded function exists) in cvGetTickCount, file /opt/local/lib/opencv2.3.1/modules/core/src/timer.cpp, line 387 Line 387 is this one: if (cvGetTickCount() == 0) { \*result = \*w; return true; } I would like to be able to use GetTickCount() as if it was a standard library function... I have downloaded and installed the OpenCV 2.3.1 version 2.3.1 from here: In which OpenCV 2.3.1 has been tested on other machines using the same libraries. I've tried to install OpenCV 2.3.1 in a different machine but I'm getting the same error. Does anyone knows what is happening with this OpenCV installation? Thanks, A: Alright, found the solution to my problem. On the project where this error occurred, I made a clear mistake: I did not install the proper version of OpenCV in the version folder. Instead of this, I've installed the version 2.3.0 and it was the one causing the error. Indeed, according to this question OpenCV 2.3.1 Expected CPUArch='x86\_64', found CPUArch='i686' Actually, with the library 2.3.1 I was able to compile the project (using /arch:SSE2 or not) but when I tried to run the program this error occurred. Anyway, thanks for you help @Cyril on his question! Q: How to decrease the number of
