AutoCAD

The application has a graphical user interface, which allows one to work with the program from the keyboard. There is also a command line interface, in which the command lines are divided into categories with subcategories of categories. In AutoCAD 2009, command line tools were first introduced and made it possible to create a batch file that performs an entire drawing process for a group of drawings or for several drawings. In later versions of AutoCAD, all commands are in the same interface. Keyboard shortcuts are often used to accelerate common actions in AutoCAD. Autodesk has released a cheat sheet for the most commonly used shortcuts. These include the following (listed in order of the most frequently used):

What's New in the?

Make new PDF documents from drawing edits for sharing. (video: 7:53 min.) Enhanced PDF Export: With AutoCAD 2019 and earlier, PDF Export added a couple of export options to the Select PDF Export dialog. With AutoCAD 2023, PDF Export adds a lot more options. For example, you can now selectively export specific layers. You can also export filter information with the Contour Filter option, and specify the depth range for the filter. See the Export PDF dialog in the Help system for details. Enhanced Themes and Drafts for Mac: Create a new or select an existing theme from the Mac Themes and Drafts. Apply a new theme to a new drawing. Choose a theme from the Mac Themes and Drafts for an existing drawing. (video: 1:15 min.) Enhanced Themes and Drafts for Windows: Create a new or select an existing theme from the Windows Themes and Drafts. Apply a new theme to a new drawing. Choose a theme from the Windows Themes and Drafts for an existing drawing. (video: 1:15 min.) New Features for the Task Sheets: The Task Sheets have new panels that give you a more complete understanding of the task: Current, Completed, Additional To-Do, Dependents, and Dependents List. See the Task Sheet dialog in the Help system for details. Web Integration: Punch cards can now be sent and received as web pages. Create a new page in Autodesk Design Review or Designer. Drag the Web Page tool onto the page. Make your changes to the page. Save the web page. Send the web page by using the Web Page import option. (video: 2:58 min.) Other enhancements and new features: Application Basics The Status bar in the ribbon shows the selected tool. The menu bar, panel, and toolbars can be hidden. You can customize these interface elements. The defaults for most settings remain the same, but you can make settings in the Customize dialog. (video: 2:48 min.) Applying Named Styles: Applying a style to a whole drawing or to a layer of a drawing is now automatic. You can add named styles to the Named Styles list and assign a style. If you have multiple named styles that you want to apply to a drawing, you can apply them in any order.
