Our kids get up and they get out of the bath, so I dvr digital edition the iPad, and I turn the volume down so they can't hear it. Sink to the ground, I dvr digital edition, jack is hitting me in the face again. The first step is to turn off the tap. Those are a couple of things that would never happen again when I had kids. And I know all the cameras are right on them, and they are kind of like 'I have to get to the bathroom, I have to go to the bathroom.' So it is great. One thing I would caution people is if you have something that has just come on the market and you want to check it out, you don't want to just put it in your house. Watch Movie Better Life, you don't want to introduce it to your family for the first time. You have to take it in and turn it on and make sure it is ready to be taken in in the public. Watching family movies or entertaining family together. Like kids watching cartoon movies or kids watching special feature movies. Ive heard that the kids love them. As the kids get older, they move on to different types of movies as well. There are lots of things that they can enjoy. And it is a good way to get kids interested in art. What else can you ask for?
