We used a voltammetric technique to

measure the transport of Na+ in intact brush border vesicles and plasma membranes isolated from human renal tubules. Analysis of the results and their comparison with those of other species suggest that this technique is suitable for the study of Na+ transport in this tissue. The transport process studied corresponds to the transport of Na+ across the basolateral membrane, and we conclude that Na+ transport across this membrane proceeds by a Na+/H+ antiport mechanism.Jan. 9 (Bloomberg) -- Saudi Arabian Foreign Minister Adel al-Jubeir said the kingdom will expand trade, invest in projects in the United States and pull back from some Middle East policies that have agitated its neighbors. He spoke at an event in Washington sponsored by the Washington Institute for Near East Policy.
